- B. The telephone number and address of the Michigan Public Service Commission where a customer may file a formal complaint regarding a Service regulated by the Commission.

SECTION 3 - SERVICE OFFERINGS**3.1. APPLICATION OF BUSINESS RATES**

3.1.1. The regulations set forth in this section govern the application of rates for Services contained in other sections of this tariff.

3.1.2. Classification as Business Service

The determination as to whether telephone Service should be classified as Business or Residential is based on the character of the use to be made of the Service. Service is classified as Business Service where the use is primarily or substantially of a business, professional, institutional, or otherwise occupational nature. Where the business use, if any, is incidental and where the major use is of a personal or domestic nature at the person's dwelling, Service is classified as Residential Service.

A. Business rates apply at the following locations, among others:

1. In offices, stores and factories, and in quarters occupied by clubs, lodges, fraternal societies, schools, colleges, libraries, hospitals, and other business establishments.
2. In residence locations where the place of residence is in the immediate proximity to a place of business and it is evident that the telephone in the residence is or will be used for business purposes, and in residence locations where an extension is located at a place where business rates would apply.
3. In the residence of a practicing physician, dentist, veterinary, surgeon, or other medical practitioner who has no Service at business rates at another location.
4. In any residence location where there is substantial business use of the Service and the Customer has no Service at business rates.

SECTION 3 - SERVICE OFFERINGS, Continued**3.2. CHARGES BASED ON DURATION OF USE**

3.2.1. Where charges for a Service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- A. Calls are measured in durational increments identified for each Service. All calls that are fractions of a measurement increment are rounded-up to the next whole unit.
- B. Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing for operator service person-to-person calls start with completion of the connection to the person called or an acceptable substitute, or to the PBX Station called.
- C. Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.
- D. Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
- E. All times refer to local time.

3.2.2. Applicable Rate Periods

Unless otherwise specified, applicable rate periods are indicated in the chart below:

	MON	TUES	WED	THUR	FRI	SAT	SUN
8:00 AM to 5:00 PM*	DAYTIME RATE PERIOD					EVE

SECTION 3 - SERVICE OFFERINGS, Continued**3.3. RATES BASED UPON DISTANCE**

Where charges for a Service are specified based upon distance, the following rule applies:

Distance between two points is measured as airline distance between the Rate Centers of the originating and terminating telephone lines. The Rate Center is a set of geographic coordinates, as referenced in National Exchange Carrier Association, Inc. Tariff FCC No. 4, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated 800 or WATS access line), the Company will apply the Rate Center of the Customer's main billing telephone number.

SECTION 3 - SERVICE OFFERINGS, Continued**3.4. CALCULATION OF DISTANCE**

Mileage sensitive charges are based on the airline distance between the serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by area code and Exchange numbers. All calls are billed from the End User's serving wire center to the terminating point serving wire center.

The distance between the originating point and that of the destination point is calculated by using the "V" and "H" coordinates as defined by NECA Tariff FCC No. 4, in the following manner:

- Step 1: Obtain the "V" and "H" coordinates for the originating point and the destination point.
- Step 2: Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the Difference between the "H" coordinates.
- Step 3: Square the differences obtained in Step 2.
- Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers.

FORMULA

$$\sqrt{\frac{(V1-V2)^2 + (H1-H2)^2}{10}}$$

SECTION 3 - SERVICE OFFERINGS, Continued**3.5. DIRECTORY LISTINGS**

- 3.8.2. In order to make allowance for a reasonable need for numbering plan area DA service, including numbers not in the directory, directory inaccessibility and other conditions, no charge applies for the first call for telephone numbers of Customers who are located within the numbering plan area of the calling party per month per Station access line. The allowance is cumulative for all group billed services furnished on the Same Premises or as part of the same system within an Exchange.

SECTION 3 - SERVICE OFFERINGS, Continued**3.9. INTRALATA PRESUBSCRIPTION****3.9.1. General**

IntraLATA presubscription is a procedure whereby a Subscriber designates to the Company the carrier which the Subscriber wishes to be the carrier of choice for intraLATA Toll Calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. IntraLATA presubscription does not prevent a Subscriber who has presubscribed to an intraLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative intraLATA toll carrier on a per-call basis.

3.9.2. Options

Option A: Subscriber may select the Company as the presubscribed carrier for intraLATA Toll Calls subject to presubscription.

Option B: Subscriber may select his/her interLATA toll carrier as the presubscribed carrier for intraLATA Toll Calls subject to presubscription.

Option C: Subscriber may select a carrier other than the Company or the Subscriber's interLATA toll carrier as the presubscribed carrier for intraLATA Toll Calls subject to presubscription.

Option D: Subscriber may select no presubscribed carrier for intraLATA Toll Calls subject to presubscription which will require the Subscriber to dial a carrier access code to route all intraLATA Toll Calls to the carrier of choice for each call.

3.9.3. Regulations

A. Subscribers of record on the effective date of this tariff will retain their current dialing arrangements until they request that their dialing arrangements be changed.

B. Subscribers of record or new Subscribers may select either Options A, B, C, or D for intraLATA presubscription.

-
- C. Subscribers may change their selected option and/or their presubscribed intraLATA toll carrier at any time subject to charges specified in Paragraph 4 following.

SECTION 3 - SERVICE OFFERINGS, Continued**3.9 INTRALATA PRESUBSCRIPTION, Continued****3.9.4. Customer Notices**

The Company will notify Subscribers of the availability of intraLATA presubscription. The notice will contain a description of intraLATA toll presubscription, how to make an intraLATA toll presubscription carrier selection, and a description of when and what charges apply related to the selection of an intraLATA toll carrier.

3.9.5. Application of Rates

- A. There will be no charge for a Subscriber's initial intraLATA toll presubscription selection.
- B. New local service Subscribers will be asked to select a carrier(s) for their intraLATA toll and interLATA calls subject to presubscription at the time they place an order with the Company for local Exchange Service. If the new Subscriber is unable to make a selection at that time, the new Subscriber will be read a random listing of all available intraLATA toll carriers to aid his/her selection. If the new Subscriber is still unable to make a selection at that time, the Company will inform the new Subscriber that he/she will be given 90 days in which to inform the Company of an intraLATA toll presubscription carrier at no charge. The new Subscriber will also be informed that the Company will assess a charge for any selection made after the 90 day window and that until a selection is made, the Subscriber will be required to dial a carrier access code to route all intraLATA Toll Calls.
- C. New Subscribers who do not make an intraLATA toll carrier presubscription choice at the time the new Subscriber places an order establishing local Exchange Service with the Company will not be presubscribed to any intraLATA toll carrier, but rather will be required to dial a carrier access code to route all intraLATA Toll Calls to the carrier of choice for each call.
- D. After a Subscriber's initial selection for a presubscribed intraLATA toll carrier, an intraLATA presubscription change charge will apply for any change thereafter. The presubscription change charge is set forth in section 4.3 of this tariff.

3.11 CALL BLOCKING SERVICE

Call Blocking Service is a Service which provides Customers with the capability to block originating calls to the 1-900 calling networks or 976 Services. When Call Blocking Service is requested, all originating calls to 900 numbers nationwide will be blocked. Calls to a 976 Service will also be blocked. Customers with Call Blocking Service attempting to dial a 900 number from a restricted line will reach a Company-provided or DUC-provided intercept announcement. Call Blocking is provided at no charge.

SECTION 3 - SERVICE OFFERINGS, Continued**3.12 RATES BY INDIVIDUAL CONTRACT BASIS (ICB)**

- 3.12.1. In lieu of the rates otherwise set forth in this tariff, rates and charges, including minimum usage, installation, special construction and recurring charges for the Company's Services may be established at negotiated rates on an individual contract basis (ICB), taking into account the nature of the facilities and Services, the costs of construction and operation, the volume of traffic, the length of Service commitment by the Customer, and use of facilities by other customers. Such arrangements shall be considered Special Pricing Arrangements, the terms of which will be set forth in individual Customer contracts. However, unless otherwise specified, the terms, conditions, obligation and regulation set forth in this tariff shall be incorporated into, and become a part of, said contract, and shall be binding on the Company and the Customer. Specialized rates or charges will be made available to similarly situated customers on a non-discriminatory basis.
- 3.12.2. In addition to any rate or charge established by the Carrier, the Customer will also be responsible for any recurring or non-recurring charges imposed by local exchange telephone companies incurred by or on behalf of the Customer in establishing and maintaining Service. Such charges may be billed by the Carrier or directly by the local exchange company, at the Carrier's option.
- 3.12.3. Upon completion of any contractual arrangements entered into under this section, the Company will file additional tariff sheets as an amendment to this tariff summarizing the Services, rates, terms, conditions, and duration of the contract, and will make the contract itself available to the Commission upon the Commission's request. The Company reserves the right to protection from public disclosure of proprietary information contained in such contracts as allowed under law.
