Infrastructure Solutions

At Granite Telecommunications our Infrastructure Solutions program is committed to providing the very best infrastructure solutions services for end to end voice, data and video solutions. Through a single point of contact we offer the experience and expertise to provide all of the telecommunications support your business needs. With our Infrastructure Solutions program we will handle all of your wiring needs, end to end – coast to coast.

A single source for nationwide project management

Granite Project Managers provide regular updates on the progress of all of your infrastructure solutions projects anywhere in the country. We offer a single point of contact for you across the Nation with 24/7/365 customer support and service. One team working for you!

Highly trained professional technicians

Our network of more than 10,000 technicians are all licensed and insured. Offering pre-installation site survey and analysis; new site cabling and installation; new line extension and termination; troubleshooting and repair. We can be anywhere in the country within four hours.

Equipment and phone systems

Partnerships with AVAYA and Nortel allow us to service and sell all aspects of your telecommunications systems. Service and maintenance contracts are also part of the suite of products available.

When you choose to use Granite Telecommunications infrastructure Solutions service or take advantage of our entire suite of offering – **POTS** (Plain Old Telephone Service), **Broadband**, and **Wireless** you will see dramatic cost savings and a decrease in administrative burdens with;

- > One point of contact, available 24/7/365
- > One bill, customized to fit your needs
- > One company, offering Nationwide service, coast to coast and border to border
