

Important Information Regarding Maryland Relay

Maryland Relay:

Maryland Relay is a public service that guarantees all citizens access to prompt, professional and precise communication. Consumers of Maryland Relay, individuals who are deaf, DeafBlind, hard of hearing or have difficulty speaking, can communicate on the telephone via TTY, Voice Carry Over (VCO), Hearing Carry Over (HCO), Speech-to-Speech (STS), Visually Assisted Speech-to-Speech (VA STS), Relay Conference Captioning (RCC), Spanish and Captioned Telephone. This helps ensure the ability to connect with family, friends or businesses with ease.

How does Relay work:

TTY: Dial 711 to connect with Maryland Relay. A qualified Operator (OPR) will ask for the area code and the number of the person you wish to call before starting to relay the conversation. The OPR will voice the typed message from the TTY user to the person on the other end. The OPR then relays the spoken words by typing any responses back to the TTY user.

Specialized Services:

Maryland Relay offers specialized services for individuals who have difficulty speaking and for Spanish-speaking residents which includes Spanish to English translation. Specially trained OPRs are on hand to assist in these types of calls. Since Maryland Relay offers a variety of services please refer to the website provided or contact Maryland Relay Customer Care for more details.

Relay Conference Captioning (RCC): Make a request for human captioning services online at MarylandRCC.com.

Captioned Telephone:

Captioned Telephone is ideal and available for individuals with hearing loss who are able to speak for themselves. A captioned telephone works like any other telephone with one essential difference: it allows users to listen to their phone conversations while reading captions of what's being said to them.

Access to Services:

711 provides toll-free access to relay services through a TTY. If you are experiencing trouble dialing 711 while trying to reach Maryland Relay, please contact Maryland Relay Customer Care. All TRS and English Captioned Telephone services are available 24 hours a day, seven days a week. Spanish Captioned Telephone is available daily from 8:00 a.m. to 12:00 a.m. EST. Consumers may place relay calls to English-speaking and Spanish speaking individuals within Maryland, across the United States and even internationally. Conversations are handled with strict confidentiality.

Dial 711 to access Maryland Relay

Captioned Telephone

Customer Care:
888-269-7477 (English)
866-670-9134 (Spanish)

To call a Captioned Telephone user, dial:
711 or 877-243-2823

Special points of interest:

Equipment Distribution Program

Maryland residents who have difficulty using a standard telephone may be eligible to receive devices or training to improve their ability to use the telephone through the Maryland Accessible Telecommunications Program (MAT).

To see if you or someone you know qualifies for this program, call 800-554-7724 (Voice) or visit MDMAT.org

Emergency Calls

Please note that 711 can only be used to reach Maryland Relay. In an EMERGENCY you should continue to use 911. In an emergency, call 911, your local emergency service TTY number or text 911. The Americans with Disabilities Act (ADA) requires that all 911 centers have a TTY and are prepared to handle emergency calls placed in this manner. Maryland Relay will make every effort to assist you in an emergency. However, it is important to understand that relay centers are **not** 911 centers and do not assume responsibility for emergency calls.
